**MTN WEPRO,
THE ULTIMATE DO-IT-YOURSELF SPRAY**

MTN WEPRO, THE ULTIMATE DO-IT-YOURSELF SPRAY

After several years in the industrial world projecting all the knowledge provided by such a demanding market that is that of graffiti, MTN launches WEPRO, the definitive bet in the DIY sector.

ALL-PURPOSE PAINT

Color range formulated with solvent base, in different finishes. With excellent resistance and corrosion protection, it has up to 5 years of anticorrosive protection outdoors.

EXPERTS IN BEING DIFFERENT

If there's one thing about MTN that can't be argued with, it's its pioneering commitment to a universe in which no one believed in: graffiti. Now we are once again turning the tables by betting on the universe of DIY from a unique perspective, no longer trying to look like we're doing the right thing or following the standard, the herd. And the path that excites us the most is, of course, going against the grain.

WATER-BASED PAINT

Color range formulated with an innovative environmentally friendly water-based formula (A+ certified and resin of organic origin). With a wide range of colors and glossy, matte and satin finishes, it is the perfect paint for domestic and indoor use thanks to its minimal odor.

SPECIALTIES

Products for specific solutions, some of them really surprising, which are organized in 11 families:

- Color.
- Primers.
- Varnishes.
- Home repair.
- Decorative effects.
- Automotive.
- Cleaning.
- Anticorrosive protection.
- Marking.
- Putties.
- Prefills.

WITH GREAT POWER COMES GREAT RESPONSIBILITY

The time has come to leverage all of our technical know-how in this type of tool, coupled with our extensive emotional experience with the consumer, to bring to market a robust range of aerosol products optimized to offer professional solutions for a wide variety of uses, projects and audiences.

WEPRO is not only the MTN brand for the do-it-yourself sector, but also a new way of understanding aerosol products and making them reach people. And not only with the latest technology, but also with a design that reflects the strength and dynamism of this creative dimension and with a permeable and motivating message so that anyone can create like a true professional.

IF WE CAN, YOU CAN

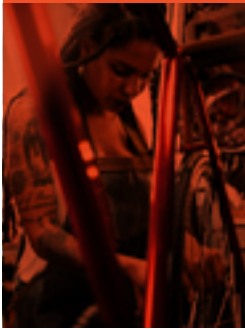

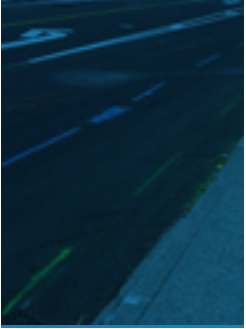

Where others see the ordinary, we see possibilities. With the WEPRO range we not only want to put the perfect product within your reach to unleash your creativity and turn your projects into professional jobs, but also want to inspire you to create, decorate, transform, renovate and recycle... in short, to go where others can't: now it's up to you...

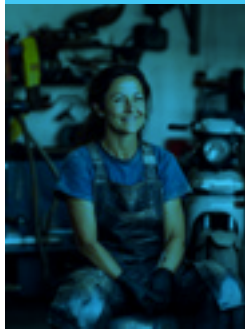

WE HAVE IT ALL

The WEPRO line is divided into three main groups: two color ranges and the specialty range.

A UNIVERSE
OF POSSIBILITIES

We love seeing colors come to life, but there’s so much more to it. Those rattling cans contain a universe of possibilities—and it’s not just about the colors. Here’s a look at the two color options in the WEPRO range and its eclectic catalog of Specialties: products with specific uses and features that go way beyond paint.

*Make it simple,
forget the brush*

TOMORROW'S
PAINT, TODAY

Multi-surface water-based paint, featuring an innovative, environmentally friendly formula. It does not drip and offers high opacity. Its minimal odor makes it the perfect paint for indoor use.

- Odorless water-based formula.
- In & outdoor use.
- Weatherproof.
- More environmentally friendly:
 - Certified A+ for low VOC emissions, meaning it is completely safe to use in enclosed or poorly ventilated spaces.
 - Bio-based certified: natural resin.
- 68 matte colors.
- 21 glossy colors.
- 2 satin colors.

If only painting was always so easy!

WATER-BASED PAINT

COLORS WITH ATTITUDE

At MTN, we don't do boring colors. That's just not our vibe! Our WEPRO shades have attitude, spark, and names that'll put a smile on your face while you decide what to paint. Because Tango Red isn't just red—it's red that gets you dancing. Pisco Sour isn't just any yellow—it's the zesty twist your day needs. And what about Psychedelic Magenta? It'll make any corner pop with serious groove. Our world of color is all about having fun and letting your creativity run wild. There are no limits, no rules. Want to paint a chair, a wall, or your old scooter? Go for it. Bring on the magic with Spell Blue, or add a touch of delicate boldness with Sakura Pink, just like Rosalía. Color is here to shake things up, to let you express yourself, and most of all, to have a blast. Get creative and bring anything you want to life!

SPECIAL COLORS

SPARKLE
EFFECT

Metallic Paint 400 ml

Metallic effect paint that provides a uniform shiny finish. Various attractive metallic shades result when light is shone on the painted object.

Its multiple uses include decoration and the automotive industry, in addition to the vast possibilities in the field of crafts.

High durability paint, good adhesion and high resistance to weathering. 100% varnishable.

Chrome Effect Paint

Paint designed to give a metallic chrome finish to any type of surface. Its perfect finish offers a great aesthetic effect and is indicated for plastic, artistic and decorative work. It has a low resistance to weathering and contact, so it is recommended for tasks where these qualities are not required. Cannot be varnished.

Plata Cromada / Silver	
EX014PR0101	
Oro Cromado / Gold	
EX014PR0102	
Cobre Cromado / Copper	
EX014PR0103	

Fluor Paint

Fluorescent paint in three brilliant and hypnotic colors providing high luminosity in natural light, visible from a distance. The pigment is also sensitive to black light (UV) and appears to glow when illuminated with this type of light. The product is especially recommended for DIY, crafts, fine arts and emergency vehicles. We also recommend its use as marking paint for surveying, construction and mining.

To obtain a more effective finish, we recommend first applying a coat of MTN PRO White Background Primer before varnishing with MTN PRO Acrylic Varnish or 2K Varnish.

Erasable Chalk Paint

Fast drying water based paint with high opacity and matte finish. Developed for temporary markings on non-porous surfaces such as construction, sporting events, film decoration, children's games, temporary decorations, and so on. Perfect for situations that require spray paint that can be easily removed later with pressurized water. Contact resistant. Does not crumble. To remove the paint, rub with a damp cloth or apply pressurized water.

PRIMERS

PRIMERS

Anti Rust Primer

A quick drying primer made with acrylic resins and corrosion inhibiting pigments (zinc phosphate). Its highly anticorrosive power makes it essential as a preliminary layer to protect any iron surface.

Gris / Grey
EX014PR0115

Rojo / Red
EX014PR0131

Epoxy Primer

Universal Primer is a primer spray that also works as a final coat. The primer enhances the adherence of paint to glossy surfaces – from plastics such as rigid PVC and methacrylate to metals such as aluminum, copper or zinc; as well as other materials such as glass, ceramic and tiles. This versatile product can also be used as a finishing paint, as it can be later enameled or varnished.

Blanco / White
EX014PR0004

Epoxy Primer

Epoxy primer is bare metal primer that thanks to its high thickness unifies the surface and allows for sanding. With excellent adhesion to different types of metals, it also serves as a primer for subsequent painting on different types of plastics. It has insulating and anti-corrosive properties.

THE PERFECT
BASE FOR
EVERY PROJECT

Plastic Primer

A clear primer that provides a base layer necessary for the subsequent painting of PP plastic surfaces (EPDM).

Formulated with a base of special additives that provide the dried paint with extraordinary adhesion to PP (polypropylene) modified with EPDM and other plastics (Write to our technical department if in doubt: sat@montanacolors.com).

White Base Primer

Matte white paint made of solvent-based acrylic resin with great covering power.

It is used as a preliminary, base coat, for subsequent painting of fluorescent, photoluminescent or very vivid colors on dark backgrounds.

This high quality paint, can also be used as a finishing coat for countless applications that require its characteristics: DIY, crafts, industry, etc.

Imprimación fondo blanco / Matte White Base Primer
EX014PR0910

Rust Converter

Neutralizing primer for local rust on steel. Generates a long-lasting anticorrosive surface protection.

Formulated with a clear epoxy resin so as not to harm the finish of the painted surface, it neutralizes and encapsulates rust on damaged steel surfaces, hence generating a waterproof layer that is resistant to corrosive agents. It allows for optimal subsequent painting, thus extending its anticorrosive properties and minimizing its maintenance.

The product can be repainted using most solvent and water-based paints.

Transformador de óxido / Rust Converter
EX014PR0018

Etch Primer

A gray anchoring primer with excellent adhesion to galvanized, electrozinc steel or aluminum and other types of polished metals.

Specially designed as a preliminary coat for the subsequent painting of garage doors, shutters, aluminum frames and copper pipes.

It can be used as a primer for nylon 6 plastic surfaces, carbon fiber, epoxy, polyester, acrylate, PVC, PC and ABS.

Thanks to its characteristics, the product also offers good anchoring properties on surfaces already painted with polyester-type paints (aluminum frames) or 2k epoxy after sanding.

Gris / Grey
EX014PR0133

Gesso Primer

White primer ideal for fine arts and crafts. Convert and prepare surfaces such as fabric, wood, plywood, cardboard or concrete into a canvas for application of different techniques later. Increases the adhesion to the surface and acts as a sealant, covering the pores and optimizing the amount of paint to be used.

MUCH MORE
THAN SHINE AND
PROTECTION

Not all varnishes offer the same kind of protection. Here, you'll find all our protective clear coats specially designed for specific uses and conditions.

VARNISHES VARNISHES

PROTECTION FOR ALL SURFACES

Clear Coat

Acrylic clear coat made with solvent-based thermoplastic acrylic resins. Ultra-fast drying, its main function is to protect and protect different surfaces.

It can be applied for indoor and outdoor use on a multitude of materials in order to increase surface protection in three finishes: glossy, satin or matte.

Different finishes can be obtained depending on the number of layers applied. Completely transparent and does not yellow.

Indoor Protective Varnish

Water-based acrylic varnish which offers high-quality finishes and durability on an array of surfaces.

Non-yellowing and available in three finishes: glossy, satin and matte.

Designed to increase the durability of furniture and indoor items, when applied directly on a porous substrate or paint, it smooths the finish and increases the color's durability.

Depending on the porosity of the material to be varnished, two or three coats may be required.

Brillante / Gloss EX014PW0900
Satinado / Satin EX014PW0904
Mate / Matte EX014PW0907

Matte Fixative

Matte transparent lacquer developed to fix and protect against dust, humidity and contact of artwork on paper using different artistic techniques, preferably dry, such as pastel, charcoal, pencil and graphite.

Provides a matte finish without altering the color, as it does not yellow.

Laca Fijadora Mate / Matte Fixative EX014PR0998

Canvas Varnish

A product designed as a final coat to protect oil and acrylic paints against humidity, grease, UV rays, dust, contamination and contact, allowing the work to maintain its properties without yellowing or cracking.

Very fast drying through evaporation.

Available in different finishes: glossy, matte and satin.

For varnishing oil paints, allow for complete drying before using the product.

Teak Oil

A blend of natural oils and resins specially chosen to nourish and enrich outdoor wood. Its effectiveness is outstanding thanks to its exclusive raw materials that give it extraordinary benefits.

Ideal for the maintenance and renovation of porous woods and garden furniture, especially teak, ipé and other exotic and tropical woods without varnishing; renovating its brightness, texture and color. In addition, it combats dryness and graying in woods exposed to the sun and protects them from stains and dust.

Incoloro / Colorless EX014PR1052

Synthetic Varnish

Synthetic spray varnish that works as a very fast drying alkyd (synthetic resin) protector. Available in a glossy satin and matte finish.

Due to its characteristics, we recommend it for wood, although it is also suitable for varnishing a multitude of surfaces, taking into account that it has a tendency to yellow. Great resistance to weathering.

Brillo / Gloss EX014PR0900
Satinado / Satin EX014PR0904
Mate / Matte EX014PR0907

2K Two-Component Varnish

Highly glossy 2-component polyurethane varnish with a great resistance to gasoline and other chemicals. Excellent resistance to the elements and humidity. It can be applied on most surfaces and two-coat paint systems.

It is designed as a top coat to protect and enhance painted surfaces: machines, automotive parts, industry, decoration and where a high-performance varnish is required. It does not turn yellow.

For professional use only. Contains isocyanates. The use of a mask is mandatory.

Brillo / Glossy EX014PK900
Mate / Matte EX014PK907

Outdoor Protective Varnish

Water-based outdoor varnish. Available in matte, satin and glossy finishes, it provides a consistent result with excellent hardness, flexibility and scratch resistance, as well as protection against UV rays.

In addition to its excellent adhesion and high mechanical resistance, it is suitable for protecting wood outdoors, such as doors, furniture, skirting boards, etc.

Depending on the porosity of the material to be varnished, two or three coats may be required.

DECORATING
FROM THE HEART

Turn spaces and objects into unique elements bursting with personality and originality with this family of products.

DECORATIVE EFFECTS

Marble Effect
Decorative solvent-based acrylic paint that gives a marble appearance to all types of surfaces.
Thanks to its characteristics, it can be applied to metal, plastic, tiles, glass or other paints.
The paint has an excellent opacity and expands on the surface by means of fine threads of colored lacquer, simulating the “veins” of marble.
Though ideal for interior and exterior finishes, it is advisable to add a protective varnish to improve its resistance. The product can be perfectly combined with both WEPRO color ranges: multipurpose paint and water-based paint.
The product is available in black, white, gold and silver, meeting the majority of creative needs.

Blanco / White EX014PM9010
Negro / Black EX014PM9011
Plata / Silver EX014PM0101
Oro / Gold EX014PM0102

Frosted Glass Effect Paint
Decorative paint that gives a translucent white appearance to all types of glass and transparent surfaces such as methacrylate.
This paint is useful for painting the windows of bathrooms, changing rooms and other places where privacy is needed. The result, which mimics the effects of acid on glass, is resistant to subsequent daily cleaning.

Translúcido opaco / Opaque translucent EX014PR0410

Glass to Mirror Converter
Decorative paint especially designed to turn glass into a mirror.
The product must be applied on the opposite side of the surface to be transformed and later backed with a black layer.

Luminous Paint

Solvent-based paint composed of photoluminescent pigments that quickly charge with light to then shine in total darkness over a long period of hours. Ideal for signaling evacuation routes, emergency signs, tunnels, parking lots, decorative items and security spaces. It is also very useful for painting fishing lines and lures to create luminescent bait.

The effect is long lasting. An optimum light effect is obtained when applied on white surfaces. We recommend a final varnish with MTN WEPRO Acrylic Varnish.

Pintura luminiscente / Luminous Paint
EX014PR0950

Reflective Paint

A 150 ml aerosol containing paint formulated with special resins and pigments that allow a light to be reflected back to the source. Its reflective power makes it ideal for road markings or for any other situation where the lack of light requires a reflective object or sign. Reflective paint works perfectly on most surfaces (metal, plastic, glass, wood and stone) and on any other surface where permanent reflective marking is required. Gray finish.

REPAIRING
IS BETTER
THAN BUYING

Who would have thought that spray cans could improve your quality of life? Here's a series of products that offer you solutions for use around the house. And it's not just about aesthetics.

HOME REPAIR HOME REPAIR

Bathtub & Tile Paint

White paint with a satin finish developed with epoxy resins, ideal for retouching or repainting surfaces such as bathtubs and tiles in one product.

Its high resistance to water and excellent adhesion make this product your best ally for bathroom or kitchen refurbishment, optimally renewing any porcelain or ceramic surface.

Blanco / White
EX014PR0015

Radiator Paint

Satin finish paint that is ideal for painting and repairing radiators - up to a resistance of 100°C - due to its hardness and color stability.

The product is available in non-yellowing white, neutral gray and beige, facilitating the integration of radiators in all types of home decoration, from the most classic to the most modern and creative.

Blanco / White
EX014PR0020
NEW Negro / Black
EX014PR0023M

Home Appliance Paint

Paint composed of high quality acrylic resins, special pigments and additives that give it a perfect finish.

Due to the characteristics of the product, we recommend it for touch-ups and painting of electrical appliances as well as their accessories.

It boasts good adhesion to most metals and plastic materials.

Heat resistant BBQ Paint

Black paint specially designed to repaint barbecues. Its formula also provides great heat resistance, withstanding temperatures of up to 650°C, and it has a satin finish similar to that of classic compact charcoal barbecues.

Negro / Black
EX014PR0011

Forging Effect Paint

Synthetic solvent paint that offers a rough finish thanks to its natural micaceous iron oxide particles. Apart from the iron appearance, this synthetic enamel has excellent anticorrosive power. Due to the characteristics of the product, we recommend it for touch-ups of all kinds of materials, whether industrial or domestic. Its finish is ideal on structural steel; gates, metal fences, welding joints, street lamps, fountains and all kinds of urban furniture.

Negro / Black
EX014PR0117

Gris / Grey
EX014PR1009

Anti-Slip Lacquer

Transparent lacquer that provides a grainy film that helps prevent falls and slips when applied to any type of surface. Formulated with high quality acrylic resins, it is especially suitable for floors and stairs. Resistant to humidity and wet environments.

Antideslizante / Anti-Slip Paint
EX014PR1070

Seal-Coating

Rubber-based paint, designed to seal leaks or small cracks in roofs, cement, metal or plastic pipes and PVC pipes in general. Creates a flexible, waterproof layer that protects and waterproofs all types of surfaces.

Anti-Stain Paint 500 ml

White paint formulated with high quality acrylic resins, together with titanium dioxide and special additives.

The result is a matte paint with high covering power, perfect for covering humidity, smoke and grease stains on walls and ceilings in a fast and durable way, creating a film barrier that prevents the stain from reappearing.

Due to the characteristics of the product, we recommend its use as a base coat or as a final finish where a matte finish is required. 100% paintable with emulsion paint.

Antimanchas / Anti-Stain Paint
EX015PR0987

Repositionable Adhesive

Special adhesive for layout and composition work, since it allows multiple replacements during planning work. Provides instant, secure and repositionable joints that do not become brittle over time.

It is transparent, does not wrinkle, does not stain and does not yellow over time.

Adhesivo Reposicionable / Repositionable Adhesive
EX014PR1086

Contact Adhesive

Film-forming adhesive with strong immediate contact adhesion of the two surfaces to be joined.

Formulated from adhesive resin mixed with aliphatic solvents, it provides high tensile power.

In addition, its valve system has an adjustable diffuser in 3 positions, making this aerosol a product adaptable to different applications, from vehicles to home DIY.

Adhesivo Contacto / Contact Adhesive
EX014PR0801

Gotelé

Paint formulated with an exclusive polyurethane dispersion which easily and simply imitates the effect of gotelé (a decorative technique that imitates raindrops on glass). Ideal for renewing and repairing this type of stucco.

The product can be applied on a multitude of surfaces such as concrete, plasterboard, wood and so on.

It can be painted with all kinds of wall paints.

Plata / Silver EX014PB006

Peel Coating

Matte paint that, once dried, becomes a removable (peelable) protective layer. Developed for the protection and customization of objects, it is also weather resistant.

It can give a “grip” effect to the painted surface due to its “soft touch” characteristic.

Ideal for the protection of metals, glass, plastics (PP, PVC, etc.) or any non-porous surface, offering excellent removability. On porous surfaces the removability of the paint can be more difficult or impossible. We recommend carrying out a previous test before executing the final work, in order to check its removability and that the required characteristics are effective.

Apply five or six thin coats to achieve a sufficient thickness, allowing approximately 5-10 minutes for the paint to dry between coats until a noticeable appearance of the film is obtained.

Stone Shield

This product is designed to effectively protect different parts of the vehicle against gravel projected during driving. Its thickness considerably muffles engine sounds and vibrations, and it can also be applied as a protector for the lower parts of the bodywork and/or wheel arches. It is designed to replicate the manufacturer's original finish, with excellent adhesion, elasticity, and good resistance to corrosion and cold weather. Once dry, it can be repainted with a bodyshop base coat.

Negro / Black
EX015PR0002

Trim & Bumper Paint

Paint formulated with high quality nitro-combined resins and with a textured finish. Its use is recommended for the automotive industry and especially for painting granulated plastic bumpers. It can be repainted.

Negro / Black

KEEPING RUST
AT BAY

We can't stop time, but we can fight its effects. Here, you'll find a range of products that not only finish the job but also protect metals from the corrosion the elements bring.

ANTICORROSIVE PROTECTION

PROTECTION THAT LASTS

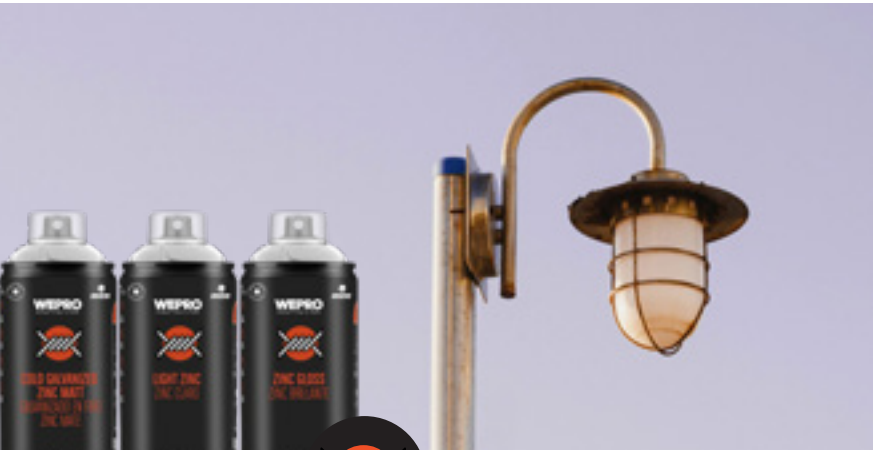

Anti-Corrosive Enamel Paint

High gloss enamel paint that can be applied directly to rust, avoiding the work of sanding and removal of the rust.

It has great drying speed and high color retention even outdoors, offering a perfect finish.

Due to the characteristics of the product, we recommend its use for touch-ups and painting of all kinds of ferrous materials.

Galvanized Zinc Paint

Very fast drying acrylic-vinyl paint, formulated with high quality resins and zinc and aluminum powder pigment.

Perfect for painting machinery of all kinds, as well as iron structures that require almost immediate handling after being painted. It provides surfaces with a galvanized metallic appearance, suitable for touch-ups of damage to parts treated with galvanic systems, also highly protective in marine and industrial environments.

Galvanizada en frío, Zinc Mate / Cold Galvanized Matte Zinc	EX014PR0106
Zinc Brillante - Plata Galvanizada / Gloss Zinc - Galvanized Silver	EX014PR0107
Zinc Claro / Light Zinc	EX014PR0114

Zinc 99%

Fast drying zinc-rich primer with a matte appearance and characteristic zinc gray color.

Especially suitable for the protection against corrosion of metallic surfaces such as fences, tanks, weld joints, galvanized parts, industrial vehicles, coastal facilities, railway equipment, and so on.

Gris / Grey	EX014PR0108
-------------	-------------

Stainless Steel Paint

Antioxidant coating formulated with acrylic resin and high-purity stainless steel metallic pigments.

With excellent resistance to weathering and extreme temperatures (300°C), this product serves as a protective finish for rough stainless steel surfaces. It can be painted over with most of the paints normally used and the surface can be varnished 60 minutes after its application.

WEPRO putties are 2K products designed to deliver versatile, premium quality solutions for surface repairs and finishes. Their advanced styrene-free formula ensures user safety, while the easy application and smooth sanding make achieving flawless results a breeze. Ideal for materials like metal, polyester, wood, and more, these putties are the go-to choice for any restoration or customization project.

PUTTIES

Universal Polyester Putty 250 - 500 g

This is a lightweight, multifunctional, 2k styrene-free putty. It is designed for use on sheet steel, aluminum, polyester and wood. Its high thixotropy allows gluing and filling without the risk of sinking. It is easy to apply and sand, doesn't crack or shrink when dry and can be painted over with any WEPRO COLOR RANGES.

The product includes a tube with the catalyst (to be mixed with the paste in a proportion of 2%) and a basic spatula for users who don't have this tool.

Poliéster Universal / Universal Polyester 250 g EXG0111250
Poliéster Universal / Universal Polyester 500 g EXG0111500

Polyester Fiberglass Putty 250 g

It is a 2k reinforced putty that doesn't contain styrene, suitable for repairing polyester composite parts and areas of rusty metal. It's a creamy putty that's easy to apply and has great adherence to different substrates.

The product includes a tube with the catalyst (to be mixed with the paste in a proportion of 2%) and a basic spatula for users who don't have this tool.

ENDLESS
POSSIBILITIES,
REFILLABLE POWER

Prefill sprays are aerosols that are specially designed to be refilled. These spray cans let consumers harness MTN technology in combination with whatever paint suits their needs.

PREFILLS

Prefill

Refillable spray with packaging machine.
For professional use only.
Prefill spray with gas and solvent
(For solvent-based paints)
Prefill spray with gas. (For universal use)

Cargas con disolvente / Prefill with solvent EX014PR0000C
Cargas solo gas / Prefill only gas EX014PR0000

Filling Machine

A pneumatic machine for the packaging of aerosols, with a simple, fast and safe system.
Compatible with 400 ml prefill aerosols, with a maximum paint fill of 100 ml per load.
Measures 69 cm.
MZ1000109

Teflon
MZ0000095

Machine Cup
MZ0000097

The machine works with a 7 bar air compressor (not included).
Check with your sales agent for operating instructions, installation, and on/off positions, as well as for maintenance and safety instructions.

ACCESSORIES MADE
TO PERFECT YOUR
PROJECTS

Enhance your DIY experience with the right accessories. From gloves and masks for safety to diffusers designed for precise detail work, our accessories make every project easier and more effective. Because success isn't just in the paint—it's in the tools you use along the way.

ACCESSORIES ACCESSORIES

PROTECTION AND SAFETY

MTN WEPRO Nylon Gloves

Technical gloves for safety and protection
The MTN WEPRO Nylon Gloves are high quality reusable technical gloves. Made of nylon and polyurethane, they protect your hands from paint stains, scratches and low temperatures, without compromising touch or precision, whilst allowing your skin to breathe.
Available in 2 sizes: S-M and XL.
S-M SPPR0101101 L-XL SPPR0101201

MTN WEPRO Winter Gloves

Technical safety and protective gloves with thermal insulation.
The MTN WEPRO Winter Gloves are high quality reusable technical gloves, designed for painting in extremely cold environments. The glove has a double plush lining, an outer coating of smooth latex and latex foam on the cuff. This technology guarantees extra protection in extreme temperatures and in the rain.
Available in 2 sizes: S-M and XL.
S-M SPPR0103101 L-XL SPPR0103201

MTN Ninja

A disposable one-piece suit with a hood, made out of nonwoven material. Perfect for protecting yourself during the painting process.
Available in 3 sizes:
S-M, L, XL-XLL
S-M SPPR3502301
L SPPR3502302
XL - XXL SPPR3502303

MTN Nitrile Gloves

The MTN Nitrile Gloves are high quality, disposable gloves made out of nitrile that protect your hands from paint stains without causing loss of tact or precision. They have been specially developed to maintain maximum sensitivity with spray can contact while still being resistant to the solvent's corrosive qualities.
Available in 3 sizes: M, L and XL.

THE PERFECT TOOL TO INFORM AND SELL

WEPRO displays are designed to be more than just a piece of furniture—they feature informative posters that break down the key benefits of each product in a clear, visual, and engaging way. From the main technical characteristics to standout applications, this direct communication helps customers find the perfect solution for their projects with ease.

We offer different models to suit the product selection you want to display: water-based paint, all-purpose paint or our range of specialties. Every display is optimized to fit your space and meet your needs, making it the ultimate sales-boosting tool.

BOOST YOUR SALES ALL YEAR ROUND

At MTN, we believe every season is an opportunity to stand out. That's why we offer you WEPRO displays specially designed for promotional and seasonal campaigns. These displays are crafted to grab the attention of your customers and make purchasing decisions easier at key moments like Christmas or seasonal transitions.

Each display is built to maximize the visibility of our products, highlighting their relevance and practicality for any time of the year. Whether it's inspiring DIY projects in spring and summer, or helping in practical repairs in fall or winter, these promotional tools help you connect with your customers at just the right time. Get your campaigns ready and take your sales to the next level!
